Dear Committee:

Thank you for the \$500.00 scholarship check for my college work 2011-2012.

I am going to a very expensive Engineering school, and this will help. I hope to apply again next year.

I have not decided yet what type of engineering that I will be specializing. I hope to get into the SMART program; that will help with funding and allow me to work for the Navy after graduation.

Thank you again,

Marshall Mullins
